

Terms of Use

A Product of Tumblehill Labs, the Product Studio of Tumblehill Holdings

Effective Date: 16 October 2026 · Version 1.0 · ev.geoatm.app

Version History

1.0 — 16 October 2026 — Initial release

1. Acceptance of Terms

These Terms of Use ("Terms") are a legally binding agreement between you ("User", "you" or "your") and Tumblehill Holdings, acting through its product studio Tumblehill Labs (collectively, "Tumblehill", "we", "us" or "our"), governing your use of the GeoEV platform, including the driver application at ev.geoatm.app, the information site at evhome.geoatm.app, the operator portal, the regulator dashboard and all associated services (collectively, the "Platform").

By using the Platform you confirm that you have the legal capacity to enter into a binding agreement and accept these Terms in full. If you use the Platform on behalf of an organisation, you confirm you have authority to bind that organisation. If you do not agree, you must stop using the Platform.

2. Description of the Platform

GeoEV is a location-intelligence platform with three service layers:

- Driver Services: a searchable, location-based directory of EV charging stations worldwide, compiled from OpenStreetMap and other publicly available data, with recommendations scored on the information available and live status for operators who participate in the Platform
- Operator Services: a secure portal for charging operators to submit and manage performance returns and, where offered, status for their own sites
- Regulator Services: dashboards showing national charging coverage, corridor gaps and operator performance, to support oversight and planning

Tumblehill does not own or operate any charging station, does not sell charging, and is not affiliated with any charging operator, vehicle manufacturer or utility unless expressly stated.

3. Accounts and Access

The driver app does not require an account. Access to the operator portal and regulator dashboard is granted by Tumblehill. If you are given access, you agree to:

- Keep passwords and operator access keys confidential and not share them

- Tell us immediately at info@geoatm.app of any actual or suspected unauthorised use
- Accept responsibility for activity carried out with your credentials

We may suspend or revoke access that breaches these Terms or where we reasonably suspect unauthorised use. Operator keys can be replaced at any time, which ends existing sessions.

4. Acceptable Use

4.1 Permitted Use

You may use the Platform only for its intended purposes: finding places to charge as a driver, managing your authorised operator account, or viewing dashboards within your authorised scope.

4.2 Prohibited Conduct

You must not:

- Use the Platform unlawfully or in breach of any regulation
- Scrape, harvest or bulk-extract data from the Platform with automated tools without our prior written consent
- Reverse engineer or attempt to derive the source code, algorithms or scoring methods of the Platform
- Submit false, misleading or fraudulent data through the operator portal
- Impersonate any person or organisation, or misrepresent your affiliation
- Attempt to gain unauthorised access to any part of the Platform or to another organisation's data
- Introduce malware or place a disproportionate load on the Platform

5. Charging Information — Important Disclaimer

CHARGER INFORMATION ON THE GEOEV PLATFORM, INCLUDING LOCATIONS, CONNECTORS, POWER, ACCESS, FEES, OPENING HOURS, AVAILABILITY STATUS AND RECOMMENDATION SCORES, IS PROVIDED "AS IS" AND "AS AVAILABLE" WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED.

In particular:

- Most charger information comes from OpenStreetMap, a community-maintained map. It may be incomplete, out of date or inaccurate, and locations may be approximate.
- Chargers shown as "Status not reported" have no live data. GeoEV cannot tell you whether they are working, free, accessible or compatible with your vehicle.
- Live status, where shown, comes from participating operators and may lag behind the real state of a charger.
- Recommendation scores reflect the quality and completeness of the information available. They are not a guarantee of availability, speed, price or suitability.
- Chargers can be removed, restricted, broken, occupied or priced differently without notice to Tumblehill.

Before relying on a charger, especially on a long journey or with low charge, confirm it with

the operator, keep a reserve of range and plan an alternative. You remain responsible for your vehicle, your route and your safety, and for complying with the operator's terms, prices and site rules.

6. Regulator Dashboards — Decision-Support Disclaimer

DASHBOARDS AND REPORTS PRODUCED BY THE PLATFORM ARE DECISION-SUPPORT TOOLS ONLY. Coverage, corridor and performance analyses depend on the completeness of open data and on operators' own returns. They should be reviewed by the responsible authority before being relied on for regulatory, planning or enforcement decisions. Operators remain solely responsible for the accuracy of the returns they submit.

7. Limitation of Liability

TO THE FULLEST EXTENT PERMITTED BY LAW, TUMBLEHILL, TUMBLEHILL LABS AND THEIR OFFICERS, DIRECTORS, EMPLOYEES, AGENTS AND LICENSORS SHALL NOT BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES ARISING FROM YOUR USE OF, OR INABILITY TO USE, THE PLATFORM OR ANY INFORMATION OBTAINED THROUGH IT.

This includes, without limitation:

- A vehicle running low on or out of charge, delays, missed appointments, towing or recovery costs, arising from reliance on charger information shown on the Platform
- A charger being out of service, occupied, restricted, incompatible, priced differently or not at the location shown
- Damage to a vehicle or property, or injury, occurring at or near a charging location; charging equipment is the responsibility of its operator
- Decisions made by an operator, utility or regulator in reliance on Platform dashboards or reports
- Loss of data, business interruption, or loss of revenue or profits

WHERE LIABILITY CANNOT BE EXCLUDED BY LAW, TUMBLEHILL'S TOTAL AGGREGATE LIABILITY FOR ALL CLAIMS RELATING TO THE PLATFORM SHALL NOT EXCEED THE GREATER OF: (A) THE FEES PAID BY YOU TO TUMBLEHILL IN THE TWELVE (12) MONTHS BEFORE THE CLAIM; OR (B) ONE UNITED STATES DOLLAR (US\$1.00). Nothing in these Terms limits liability that cannot lawfully be limited.

8. Intellectual Property and Open Data

The Platform and its intellectual property, including the GeoEV name, logo and branding, software, scoring methods, analytical frameworks and report designs, are owned by Tumblehill Holdings and protected by law. We grant you a limited, non-exclusive, non-transferable, revocable licence to use the Platform for its intended purposes.

Charging location data from OpenStreetMap is © OpenStreetMap contributors and is available under the Open Database Licence (ODbL). Nothing in these Terms restricts your rights to OpenStreetMap data under that licence, which you can obtain directly from OpenStreetMap.

9. Operator-Specific Terms

Charging operators using the operator portal (each an "Operator") also agree to the following:

9.1 Data Ownership

Returns and status data submitted by an Operator remain the Operator's property. Tumblehill uses them only to operate and improve the services provided to that Operator and, once released, to the relevant regulator.

9.2 Data Accuracy

Operators are solely responsible for the accuracy, completeness and timeliness of what they submit. Tumblehill is not liable for errors in driver information or regulator dashboards arising from Operator submissions.

9.3 Release to Regulators

Each Operator's returns are kept separate from other Operators' data. A return is shared with a regulator only when the Operator releases it. Aggregated, non-identifying data may be used to improve the Platform.

9.4 Security

Operator returns are encrypted in transit and at rest, and access keys are stored only as hashes. Operators must keep their keys secure and ask us to replace a key promptly if it may have been exposed.

10. Third-Party Services

The Platform relies on third-party services, including OpenStreetMap for map data and images and Google Maps for directions. Tumblehill does not control and is not responsible for those services. Their use is governed by their own terms and policies.

11. Platform Changes

We may change, suspend or discontinue any part of the Platform, including features, data sources or supported countries. Where practicable, we will give notice of material changes to organisations with access. Tumblehill is not liable for any such change.

12. Termination

We may suspend or end your access where we reasonably believe you have breached these Terms or where required by law. Organisations may ask us to end their access at any time by writing to info@geoatm.app. Rights and obligations that arose before termination are unaffected.

13. Force Majeure

Tumblehill is not liable for any failure or delay caused by events beyond its reasonable control, including natural disasters, storms, fire, epidemic, war, civil unrest, government action, power or grid failures, failure of the internet or telecommunications networks, cyberattacks, or failure of third-party hosting or data providers.

14. Governing Law and Disputes

These Terms are governed by the laws of the State of Wyoming, United States of America, without reference to its conflict of law principles. Tumblehill Holdings LLC is a limited liability company organised under the laws of the State of Wyoming. The Platform lists charging stations worldwide and may be used from any country; where a jurisdiction requires it, local terms may apply. Nothing in this clause removes protection given to consumers by the mandatory law of the country where they live.

Any dispute will first be referred to good-faith negotiation. If it is not resolved within thirty (30) days of written notice, either party may refer it to the non-exclusive jurisdiction of the state and federal courts located in the State of Wyoming.

15. General Provisions

15.1 Entire Agreement

These Terms, the GeoEV Privacy Policy and any Operator-specific agreement are the entire agreement between you and Tumblehill about the Platform.

15.2 Severability

If any provision is unenforceable, it will be modified to the minimum extent necessary and the rest will remain in effect.

15.3 Waiver

A failure or delay by Tumblehill in exercising a right is not a waiver of it.

15.4 Assignment

You may not transfer your rights or obligations without our prior written consent. Tumblehill may assign these Terms in connection with a merger, acquisition or sale of assets, on notice.

16. Changes to These Terms

We may update these Terms. Material changes will be communicated through the Platform, with reasonable notice where practicable, and the updated Terms will show a revised effective date. Continued use after notice constitutes acceptance.
